Website Checklist

Get Everything Ready Before You Inquire

Creating a website is more than just pretty visuals—it's about building a powerful online presence. To make sure your website shines, you'll need to roll up your sleeves and get a few things ready first.

Use the checklist on the next page to ensure you have everything in place before inquiring:

Website Design Checklist

Compile Your Brand Assets

- **Color Palette:** Include color codes to keep your brand visually aligned.
- **Logo Files:** Submit only PNG or SVG files for high-quality rendering—no JPEGs accepted.
- **Pro Tip:** Having your brand assets ready ensures your website matches your identity perfectly!

Professional Brand Photos

- Your photos set the tone, so quality matters!
- Use high-quality, professional images that reflect your brand's vibe.
- Avoid selfies, blurry images, or overused stock photos to maintain uniqueness and professionalism
- Think of these images as the face of your brand—**make them count!**

Website Design Checklist

Clarify Your Vision

- Think about the look, feel, and message you want to convey through your site.
- **Layouts & Features:** Think about the structure, functionality, and tools you need.
- **Overall Message:** What do you want visitors to feel or do when they visit your site?
- A clear vision helps us design a site that tells your brand's story effortlessly.

Purchase a Domain Name

- Your domain is your online address. Make sure to secure a unique one that represents your brand well.

Purchase a Website Plan

- Choose the right website plan that aligns with your business needs. Whether it's a basic plan or an e-commerce setup, make sure it supports your vision.
